

TRAINEE TUBE BEND OPERATOR

Ref ID: TBO0624

McAuley Engineering was founded in 1997 by Jonathan McAuley. Built on foundation of integrity, commitment to quality and determination to succeed. McAuley Engineering have a strong community involvement and have won several awards alongside their industry accreditations.

The source of our strength is the people in our company, and we are committed to training and developing them to support Quality, Environmental, Health and Safety and customer service. The Company is committed to continuous improvement and innovation.

Working with a small team of skilled tube bend operators, the trainee will learn to produce high quality parts to engineering drawings. The trainee will be expected to be competent enough to program and produce a wide range of components within 10 weeks of starting. When full competence in the tube bending process is attained the position attracts an excellent shop floor salary and potential opportunities for further progression within the company.

The successful candidate must have:

- An awareness of the importance of health, safety and environmental concerns in a manufacturing plant
- A demonstrable understanding of mechanical principles
- A working knowledge of engineering drawings and the capacity to correctly interpret requirements as well as using measuring equipment to check parts produced.
- A willingness to learn, sharp problem-solving capacity, good communication skills and a keen eye for detail.
-

Experience in the following would be advantageous but not essential.

- Working to targets in a production environment
- Utilising a computer to program a machine to move on multiple axis. (eg Pressbrake)
- CNC machine operation
- Tool changing and setting.
- Metal forming experience (eg Pressbrake)
- Identifying different materials and grades
- The interview will include a simple test of arithmetic and understanding of engineering drawings.

Schedule:

This position will initially be on dayshift Mon to Thurs 7am to 5pm but an Evening shift (5pm – 3am Mon to Thurs) may be required to satisfy demand. The successful applicant must be available and willing to work a rotating shift pattern if required. There is a paid overtime at a rate of 1.5 on Fridays and Saturdays. It is important to note that the business does not operate on Sundays.

Closing date for completed application is noon Thursday, 4 July 2024.

Benefits:

- Great opportunity for personal development - internal progression.
- On-site parking

Job Types: Full-time, Permanent

Salary: £11.44-£12.50 per hour

Ability to commute/relocate:

- Ballymoney BT53 7ET: reliably commute or plan to relocate before starting work (preferred)
