

TUBE CUTTING OPERATOR

(Ref ID: TCO0924)

About McAuley Engineering: Founded in 1997, McAuley Engineering is built on integrity, quality, and a commitment to success. We value our community and have won several awards. Our strength lies in our people, and we are dedicated to their development and continuous improvement.

Position Overview: We are looking for a skilled Cutter to join our team. You will cut and shape tubular materials to precise specifications using various tools and equipment.

Key Responsibilities:

- Operate cutting machinery accurately
- Read and interpret engineering drawings or work orders
- Use hand tools like grinders and saws
- Perform grinding and finishing tasks
- Troubleshoot cutting equipment issues
- Maintain a clean and organized work area

Essential Criteria:

- Proficient with hand tools for cutting and shaping
- Knowledge of cutting processes and equipment
- Attention to detail
- GCSE Maths Grade C (minimum)

Desirable Criteria:

- Experience in joinery-type cutting
- Ability to read technical drawings
- Experience working in small teams
- Problem-solving skills
- Manual dexterity

Schedule:

- 2 shift pattern (Monday to Thursday)
 - Day shift: 7am – 5pm
 - Evening shift: 4:45pm – 3am
- Overtime available on Fridays and Saturdays at 1.5x rate
- No work on Sundays

Benefits:

- Personal development opportunities
- 4-day working week
- On-site parking

How to Apply: Complete the application form and use the “Information in support of your Application” page to detail your experience and how you meet the criteria. Contact us at 028 27666646 to apply.
