

TUBE CUTTING OPERATOR (Full-Time/Part-Time) (Ref ID: TCO1124)

About Us: Founded in 1997, McAuley Engineering values integrity, quality, and community. We are committed to the development and continuous improvement of our team.

We are looking for a skilled Cutter to join our team. In this role, you will be responsible for cutting and shaping tubular materials using a variety of tools and equipment.

This role offers flexible working hours with two options:

1. Part-Time: 20 hours per week, spread over 4 days (Monday to Thursday).
2. Full-Time: 38 hours per week, spread over 4 days (Monday to Thursday).

Key Responsibilities:

- Operate cutting machinery
- Read and interpret engineering drawings
- Use hand tools (grinders, saws)
- Perform grinding and finishing tasks
- Troubleshoot equipment issues
- Maintain a clean work area

Essential Criteria:

- Proficient with hand tools
- Knowledge of cutting processes
- Attention to detail
- GCSE Maths Grade C (minimum)

Desirable Criteria:

- Experience in joinery-type cutting
- Ability to read technical drawings
- Experience in small teams
- Problem-solving skills
- Manual dexterity

Benefits: Enjoy a 4-day work week, on-site parking, and a supportive, inclusive work environment. We offer opportunities for professional development and career advancement.

How to Apply: To obtain an application, please contact us at 028 2766646. Use the "Information in support of your Application" section to detail your relevant experience and how you meet the criteria.
