

Quality Inspector

Ref ID: QI0225

McAuley Engineering, established in 1997 by Jonathan McAuley, is renowned for its integrity, quality, and determination. As a community-focused and award-winning company, we are dedicated to continuous improvement and innovation, with a strong emphasis on the training and development of our people. To maintain our high standards, we are seeking a new Quality Inspector for our Fabrication department. This role, reporting to the Quality Manager, involves working within a dynamic team to ensure outstanding quality.

Key Responsibilities:

- Maintain quality standards by approving incoming materials, managing PPAP, in process production and finished products.
- Conduct visual and measurement tests; rejecting and returning unacceptable materials, document inspection results by completing reports and logs; summarize re-work and waste; input data into quality database.
- Ensure inspection records meet the ISO standards
- Coordinate with suppliers, colleagues and customers regarding any issue on quality
- Keep measurement equipment operating by following calibration procedures
- Use Quality processes, procedures and systems and revert when needed to engineering drawings to make sure all products meet these standards.
- Quarantine products when necessary and liaise with Production and Engineering to identify ongoing problems and provide guidance where required to assist with resolving issues.

Ideally, candidates should have prior experience as a Quality Inspector or within a Quality Department in a manufacturing or engineering firm. With a keen eye for detail and excellent communication skills, you will be familiar with working within a Quality framework.

Essential

- Experience of ISO Quality standards and an understanding of quality control techniques.
- Proficient at understanding Engineering drawings for fabricated parts.
- Proficient on MS Word and Excel

Desirable

- Experience of CMM programming and operation.
- Full understanding of geometrical dimensioning and tolerancing on drawings.

Work Schedule:

- Monday to Thursday: 8:00 AM to 5:00 PM
- Friday: 8:00 AM to 1:00 PM (39-hour week)

- No operations on Sundays

Benefits:

- Enhancing annual leave based on years of service.
- Electric vehicle charging ports.
- Recognition rewards for years of service.
- Secure, free onsite parking.

Salary: Based on experience
