

## **TRAINEE TUBE BEND TECHNICIAN (Full-Time/Part-Time)**

**Ref ID: TBT1124**

**About Us:** Established in 1997, McAuley Engineering values integrity, quality, and community. We are committed to our team's development and have received several awards.

Join our team as an entry-level metalworker and receive training in CNC tube bending. We offer flexible working hours with the following options:

1. Part-Time: 20 hours per week, spread over 4 days (Monday to Thursday).
2. Full-Time: 38 hours per week, spread over 4 days (Monday to Thursday).

### **Key Responsibilities:**

- Operate and set up the BLM Elect 52 machine.
- Follow safety protocols.
- Assist in tube bending.
- Inspect finished products.
- Maintain a clean work area.

### **Essential Criteria:**

- A Levels or equivalent.
- Mechanical aptitude.
- Ability to follow instructions.
- GCSE Maths (minimum B).

### **Desirable Criteria:**

- Strong communication skills.
- Adaptability to new technologies.
- Problem-solving skills.
- Experience in manufacturing or metalworking.

### **Training and Development:**

- On-the-job training.
- Skill development and career advancement.
- Continuous learning in tube bending.

**Benefits:** Enjoy a 4-day work week, on-site parking, and a supportive, inclusive work environment. We offer opportunities for professional development and career advancement.

**How to Apply:** To obtain an application, please contact us at 028 2766646. Use the "Information in support of your Application" section to detail your relevant experience and how you meet the criteria.
