

MILL OPERATOR (Ref ID: MILL0924)

Founded in 1997 by Jonathan McAuley, McAuley Engineering is built on integrity, quality, and a determination to succeed. We are deeply involved in our community and have received numerous awards and industry accreditations.

Our Commitment: Our strength lies in our people. We are dedicated to training and developing our team to uphold our standards in Quality, Environmental, Health and Safety, and customer service. We continuously strive for improvement and innovation.

Overview: We are currently seeking a skilled Mill Operator to join our team in a manufacturing environment. The ideal candidate will have experience in materials handling, tooling, and mechanical knowledge to operate milling machinery effectively.

Key Responsibilities:

- Operate milling machines to fabricate and assemble parts.
- Handle materials and tooling for the milling process.
- Use hand tools to set up and adjust machinery.
- Conduct basic mathematical calculations for measurements.
- Interpret technical drawings and blueprints.
- Perform routine maintenance and troubleshooting.
- Inspect finished products for quality.
- Maintain a clean and safe work environment.

Requirements:

- Proven experience as a Mill Operator or similar role.
- Proficiency in reading and interpreting technical drawings.
- Strong attention to detail and commitment to quality.
- Ability to work independently and as part of a team.
- Good communication and problem-solving skills.
- Basic maths skills for measurements and calculations
- Knowledge of safety protocols and procedures.

Benefits:

- Opportunities for professional development and career advancement.
- Supportive and inclusive work environment.
- 4-day week
- On-site parking

How to Apply: Complete the application process and contact us at 028 27666646. Use the “Information in support of your Application” section to detail your relevant experience and how you meet the criteria.
